## 6.2 Strategy Development and Deployment

### 6.2.1 The institutional perspective plan is effectively deployed and functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment, service rules, and procedures, etc

The effective and efficient functioning of institute is achieved through Governing Body (GB), College Development Committee (CDC), Internal Quality Assurance Cell (IQAC), Department Advisory Board (DAB) and Institute Level Committees which includes Principal, Deans and HODs.

Improvements in research and development activities can be made, according to the findings of the last NAAC assessment and the AQAR of 2017-18 and 18-19. In the IQAC meeting it is discussed about planning and organization of the activities that would inspire teachers and students to conduct research. It was decided to organize an international conference that would give teachers and students a forum for fostering a research atmosphere.

**Case Study: International Conference-** The institutional Strategic/ perspective plan is effectively deployed and it is seen from the case study of the International Conference 3<sup>rd</sup> International Conference on Advances in Engineering, Technology and Business management (ICAETBM\_2022) held on 22<sup>nd</sup> - 23<sup>rd</sup> Feb 2022. Institute had initiated planning for it at the beginning of the academic year 2020-21.

Various committees involving resource persons from industry, academicians, faculty, staff members and students. Total 102 papers were received, out of which 52 papers were accepted for the conference. Numbers of participants present for the conference were 166. All the papers were presented and selected papers were published in journals listed under Scopus/Web of Science/UGC CARE.

This conference gave exposure to the recent trends in science and technology to the faculty and students of this institute. It motivated them to search for different research areas of their interest and work on them, which is a good beginning to inculcate research culture in the institute.

The College's Governing Body is the highest administrative body. It is set up in accordance with the regulations of the governing bodies. The Governing Body is aspirational and uses a strict governance framework to translate goals into results. In order to serve the interests of the stakeholders, the Governing Body approves the Institution's Vision and Mission as well as annual budgets and short- and long-term goals.

The Governing Body in relation to the authorized plans evaluates the institution's performance. Decentralization and power delegation guarantee everyone's participation in decision-making at their appropriate levels. As a result, there are numerous institutional committees made up of employees and faculty. The accompanying transparency is another crucial aspect of the workplace culture. In accordance with the guidelines established by the regulatory authorities, the Nutan Maharashtra Institute of Engineering and Technology has established policies as well as service rules and processes. The institute adheres to the same. The copy of the service rulebook is available in the Establishment Section, Library that can be referred by the faculty/staff whenever necessary.

Short Term Goals	Current Status
a) Developing system for practicing engineering & research through training, collaborations and programs;	✓
b) Obtain ISO 29990 for institute;	✓
c) Faculty & student empowerment programs;	✓
d) Foster activity based learning based to develop disciplinary minds, creative minds and innovative minds;	✓
e) Establishment of image laboratory for holistic personality development inclusive of transferable skills, generic skills and life skills;	✓
f) Preparation of institute development plan for academics development;	✓
g) Developing network with industry and institutions;	✓
h) Enhancing network with stakeholders- alumina, parents & academician/industry experts;	✓
i) Creating learning management system(LMS);	✓

Long Term Goals	Current Status
a) Setting up business activity in collaboration with industry & business;	✓
b) Setting up research center in each domain of engineering programme;	NA
c) Collaboration with research institutes nationally & internationally;	In progress
d) Development of Technology search center;	✓
e) Development of platform for "self-made" multi-faceted professionals (all stakeholders) contributing to the national development ;	✓
f) Establishment of blended & digital platform for quality in education;	✓
g) Five star accreditation of the institute (ISO-NSQF-NAAC-NBA-ABET) with ranking in first 100.	60%
