## Notice

Date: 01/09/2022

### This technical event i.e. "CAD competition using SOLID EDGE"

All the students SE/TE/BE Mechanical are hereby informed that **Technical Event on "CAD Competition using SOLID EDGE"** is scheduled on **08/09/2022**

#### About Event

The recent changes in the industrial scenario have made CAD skill as an emerging field for mechanical engineering students. Further, CAD skills are becoming prominent in industrial products design and development applications. This CAD skill helps design engineers, manufacturers to solve their complex engineering problems and digitalizing their design to manufacturing journey.

This technical event i.e. "CAD competition using SOLID EDGE" aims to create more awareness about design softwares like Solid Edge and participation in CAD competition for development of mechanical engineering students. The program also aims to give platform for NMIET mechanical students to showcase their CAD skill sets on Solid Edge software for Industry requirements.

**Beetel Teletech Limited and 4Dimensions Infotech (An authorized channel partner of SIEMENS)** and **SIEMENS** are sponsoring this event.

#### Note:

- No Fees for this competition.
- Every Student will get certificate of Participation and special gift.
- Top Three Winners will get attractive prizes from the sponsor companies.

ALL SE/TE/BE Students are invited to enroll by giving names to event coordinator mentioned below

**Title: CAD Competition using Solid Edge**

**Date of Event: 8/09/2022**

**Participants:** Final year students of Mechanical Engineering of NMIET

**No. of participants:** 72

**Faculty coordinator:** Prof. Santosh Dabhole

**Expert:** Mr. Rahul Burkule, Mr. Kunal Giradkar, Mr. Dipak Dhadge, Mr. Ambresh Pawar

**Description:**

Cad Skill are the major requirement for the mechanical design engineers now a day. To showcase this skill Department of Mechanical Organizes a technical Event on CAD Competition using Solid Edge".

In this Competition there were 72 participants have been enrolled. The question drawings are set for 1 hr test. Rules of events are as follows:

**CAD modeling**  
Rules of competition are as follows

1. A Clear Print out or Xerox of CAD drafting/drawing having questions given to every participant.
2. Each participant is given access to a certified workstation with a genuine SE CAD license.
3. First Stage (Make) - Make CAD model and apply material. Measure Mass/Weight to THREE decimal places. *(Write in the answer on given Question paper in space provided)*
4. Second Stage (Modify) - Modify CAD model as per question given on drawing. Measure Mass/Weight to THREE decimal places. *(Write in the answer on given Question paper in space provided)*
5. Third Stage (Analyze) - Linear Static Analysis on modified CAD model (with default boundary conditions). Measure Stress/Deflection. *(Write in the answer on given Question paper in space provided)*  
[Note: This step is OPTIONAL, but has bonus marks]..... Duration 1:00 Hr.

The person to finish first (within shortest time) with all correct answers wins the 1<sup>st</sup> Prize.

Outcome of Activity:

**Nutan Maharashtra Institute  
of Engg. & Technology  
"Samarth Vidya Sankul" Vishnupuri  
Talgaon Dabhade, 410507**

Students experienced the competitive environment for showing CAD skills and given opportunity to interact with industry persons in this event. They realise that in CAD work with perfection, precision and accuracy very much needed as it affect the product cost, product time to launch. Time bound activities are necessary in professional design work assignment. This activity develop the students mindset for product design work carried out. This will help to improve their attitude towards learning Design, Manufacturing subject with increased interest factor for real life applications.

All present 72 students participated in this topic were awarded by certificates and First Three were awarded by Gift Prize.

Greetings..!!  
Dear Sir/Mam,

We 4 Dimensions are the authorized channel partner of SIEMENS working with Beetel Teletech Limited who is a national distributor.

We are working in CAD/CAM/CAE field for more than 10 years helping manufacturers to solve their complex engineering problems and digitalizing their design to manufacturing journey.

We believe that to increase our footprints and create more awareness about design softwares we would like to organize a design CAD Competition.

We need to organize this in month of September and one day would be enough for the Competition.

Number of participants we are targeting is around 80 and will only be restricted to only Mechanical engineering domain.

We will also planning a lunch for all participants in the event.

Let us know a tentative date for a event.

Looking forward to having a successful event.

Thanks & Regards
