AY: 2021-2022
Date: 08/05 /2022

Activity Report

Session on GD/PI

Objective of Activity:

The objective of this event is that students is being organized to see and evaluate their thinking skills, listening abilities and how students are communicating at the time of group discussion and ask series of questions to students to assess their professional and educational backgrounds.
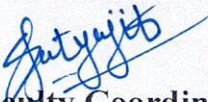

Number of Student Involved: 83

Brief Description of Activity:

Our department of Computer Engineering has planned to organize "Series on Group Discussion and Personal Interview".

Group Discussion – A group discussion tests the students ability to work in a team, to arrive at a common perspective on an issue. Good managerial skills require teamwork to find solutions to business problems and one has to work in conjunction with others' views in the process. The GD tests the students ability to follow a structured approach and it helps the interview panel to identify personality traits of the students in the group setting, namely – teamwork, structuring of thoughts, communication skills, respect for others' views and critical analysis.

Personal Interview – This is the final stage in the admission process. It helps the panel to understand the students with respect to their communication skills, confidence, career aspirations, concepts relating to subjects.
