Hi Rushikesh,

Greetings from AFour Technologies!

**We are looking for full time interns starting from Jan 2022 or even by Sep 2021. I request you let us know by when we can start the selection process**

AFour Technologies is a rapidly growing technology and consulting services organization on the horizon. With 300+ technocrats and 50+ HITECH customers, we are rapidly growing our footprint in the USA as well as APAC. We are very near to reaching the milestone of a 100 Cr+ organization.

In the new delivery model with a focus on agile methodologies and engineering excellence, unlike the large organizations, our technocrats are directly working with the customers and get nice visibility in the organization.

We are like 50+ product companies working together. In this structure, you get to work with a number of technologies of your choice and establish your signature as a technocrat. Other than the core project work you can showcase talent for regular Asset/IP creation projects, Presales POCs as well as training activities and get additional monetary benefits. Also in addition we expect the individuals to gain more knowledge and skills in the areas such as CI/CT/CD, Kubernetes, AWS/Azure/OpenStack/etc with the help of training resources made available by AFour.

Refer to <https://www.youtube.com/watch?v=6700sMSiVtU> to understand more about our business and the team. You could also visit [afourtech.com](http://afourtech.com).

As someone said quite well, richness of solution depends on the richness of the problem. The interns are exposed to the complex open ended problems in the industry. The interns are benefited by interaction and mentoring from senior industry experts as well as have a joy of earning respectable stipend. We have an online remote selection process. **The selected interns will get a stipend of Rs.30000 per month (inclusive of taxes) and if they do well during the internship, based on their performance, will be offered a package of Rs.6.25 LPA at the end of successful internship completion.**

Dear Rushikesh,

We have an exciting opportunity for Software Engineer Trainees

**Desired Candidate Profile:** Candidate needs to be self motivated, talented, energetic & passionate about coding. Candidate should be ready for on/off duty in extra hours as the tasks will be quite tough in the beginning and needs to be quick learner.

**Qualification:** BE Computer (69% Throughout Academics) and good mathematics background.

**Qualification:** BE Computer (75% Throughout Academics) and good mathematics background.

**About Gridlogics:**  
Gridlogics is a leading provider of products and custom software solutions for patent, research management, data analysis and project management. Our products leverage the latest techniques in information retrieval, data mining and visualizations to help clients globally in deriving actionable intelligence from the masses of patent data.

With more than 100 man-years of experience in Intellectual Property Software Gridlogics has a strong in-house team of developers and engineers who understand the complexities involved in designing very large patent databases, patent management systems, in-house alerting and workflow systems with all associated features around it. Our products are in use by large and medium corporations, law firms, legal service providers and even technology startups.

At Gridlogics we are dedicated to bringing new ideas in the field of Intellectual property.

Your interview at Gridlogics

Minakshi Ingole <minakshi@patentinsightcorp.com>

To Rutuja, me, Manish

Dear Rutuja

With reference to your recent interview at Gridlogics for the position of Software Engineer Trainee/Probation we are pleased to let you know that you have been selected for the role.

Details are as follows:

Position: Software Engineer Trainee / Software Engineer - E2 (after 6 months)

Date of Joining: 3rd March 2021

Timings: 10:00 AM to 7:00 PM

Location: Baner, Pune (Currently Everyone is working from home). Working from office to resume as per management discretion.

Training/Probation Period: In the first six months as a Training/Probation Period. Based on evaluation of your performance and capabilities demonstrated you will be issued a confirmation letter at the end of the 6 month period.

Notice Period: For the first 6 months the notice period will be 1 week and after confirmation the notice period on either side is two months.

Salary/CTC: During First 1 month stipend: INR 10,000/- from second months INR 1.80 LPA as a trainee. On confirmation: INR 2.20 to 3.00 LPA based on 6 months performance (There will be Employee & Employer Provident Fund and Professional Tax, ESIC amount deducted from this).

The salary is subject to review on an annual basis (from date of confirmation) and appraisals are based on performance and motivation demonstrated by the employee.

Work from Home minimum requirements - The candidate must fulfill the minimum requirements needed for Work from home which include having a personal computer of sufficient memory, and a broadband internet connection. Gridlogics uses Desktop software to manage productivity and time spent-at-work of employees during WFH and the same will be used to track the productivity of the candidate.

Lock-in period: The candidate is expected to stay for a minimum period of 2 Years after training period. In case the candidate leaves before the end of the lock-in period he/she will not be given any relieving letter or experience certificate.

Office Address:

Gridlogics Technologies Pvt. Ltd.  
4th Fl, Sunflower Commercial  
77/1 Baner Road, Pune - 411045.
